Suhas Ledange

Nagpur, Maharashtra, India | suhasledange10@gmail.com | Portfolio | +91 7058963797

SUMMARY

Front-end development student proficient in ReactJS, NextJS, and TailwindCSS. Experienced in building responsive web applications, optimizing UI/UX, and collaborating with cross-functional teams. Seeking a front-end development role.

SKILLS SUMMARY

Languages: C, C++, JavaScript, Python.

Libraries/Frameworks: ReactJS, NextJS, ExpressJS, NodeJS, TailwindCSS.
Tools/DBMS: Git, GitHub, MS Office, MongoDB, SQL, MySQL.

• Course works: Data Structure, Algorithms, Web Development, OOPS.

Non-Technical Skills:
Problem Solving, Critical & Analytical Thinking.

Interests: Weight Lifting, Music Production (YoutubeLink)

WORK EXPERIENCE

Front-end Intern | Unix Technologies

Apr 2023 – Sept 2023

- Developed responsive web applications using ReactJS and TailwindCSS. Implemented user authentication and optimized UI/UX for better user engagement.
- Collaborated with designers and backend developers to integrate frontend components with backend services and APIs and increased application loading speed by 30%.
- Troubleshot and resolved frontend issues, ensuring cross-browser compatibility and performance optimization.

PROJECTS

Book Cafe | GitHub

Web Application | Feb 2024 - May 2024

Essentials Skills: NextJS, TailwindCSS, Appwrite.

- E-commerce Features: Developed product browsing and implemented 2 secure payment options.
- State Management: Utilized Redux for efficient state management, ensuring smooth and consistent user interactions across the application.
- User Authentication: Integrated Google account authentication via Context API, reducing login time by 30%.
- Backend Management: Utilized Appwrite for user account management and secure product information storage.
- Performance Optimization: Reduced page load time by 50% and improved server response time by 40%, ensuring a seamless user experience.

Ammunition Management System | GitHub

Web Application | Nov 2023 - Dec 2023

Essentials Skills: NextJS, TailwindCSS, Solidity, Hardhat.

- Blockchain Integration: Developed a secure ammunition management system using Next.js and Solidity for transparent inventory tracking.
- Data Security: Achieved a 40% reduction in inventory discrepancies through blockchain technology.
- Scalability: Enhanced scalability, handling concurrent user interactions with a 50% increase.
- State Management: Used Context API for efficient state management, improving application responsiveness.
- Library Utilization: Leveraged multiple libraries including Ether.js, Web3Modal, Infura, Hardhat, and others to enhance blockchain interactions, wallet connectivity, and overall application performance.

EDUCATION

Savitribai Phule Pune University

2020-2024

Bachelors of Computer Engineering, GPA: 8.1

ACHIEVEMENTS

Data Structures and Algorithms in C++ | Coding Ninja Problem Solving (Intermediate) | HackerRank
